ODYSSEY®
BATTERY

A NEW GENERATION OF BATTERY

Automotive

Today's cars, sport utility vehicles (SUVs), trucks and light commercial vehicles are loaded with more electronics than ever before. But ODYSSEY® batteries can handle it and still deliver big starting power, plus three times the life of conventional batteries.

Odyssey batteries out perform the OE first fit battery for longer life in demanding applications.

Commercial Vehicle

Today's professional vehicles are more demanding, with driver systems and hotel functions now requiring higher performance than conventional batteries were ever designed for.

ODYSSEY® AGM2 batteries with TPPL (Thin Plate Pure Lead) technology provide the solution that can meet these new high power consumption demands.

With the DINC size now available with ODYSSEY® CONNECT™ and CONNECT Battery Monitoring App, you can take control, giving you real-time data to be ahead of any issues and keep you on the road.
